

Cody Hanna

Full-Stack Software Engineer

Stevensville, MD · (410) 490-9074 · codyhanna8@gmail.com · codycodez.com · github.com/CodyHanna04 · linkedin.com/in/cody-hanna04

SUMMARY

Full-stack software engineer with experience building internal automation tools, operational business platforms, and enterprise systems support. Skilled across React and Node.js development, scripting, system administration, and virtualized infrastructure — from production platforms serving real businesses to a multi-node homelab environment.

EXPERIENCE

Interclipse Inc.

June 2026 – Present

Junior Full Stack Software Engineer

- Develop and maintain full-stack software solutions as part of an engineering team.

CyberCore Technologies — Elkridge, MD

June 2025 – June 2026

Technical Support Developer (prior: Junior Image Technician, IT Intern)

- Promoted twice in twelve months, from IT Intern to Technical Support Developer.
- Developed and maintained internal operational tools including a shipment tracking / anomaly detection system and a warehouse workflow application.
- Built automation that reduced FedEx contract rate updates from a three-week manual task to under an hour.
- Automated processes using custom scripts and platforms such as Microsoft Power Automate.
- Imaged and deployed 400+ laptops weekly, improving deployment throughput by 50%.
- Troubleshoot infrastructure, networking, and system issues in collaboration with IT.

Automated Mortgage Systems, Inc.

January 2025 – June 2025

Software Developer Intern

- Assisted with integrations between frontend tools and backend services using REST APIs and authentication workflows.
- Participated in troubleshooting cycles across production and staging environments.
- Collaborated with senior engineers to resolve performance, reliability, and system behavior issues.

PROJECTS

Homelab — Systems Engineering Environment

- Multi-node Proxmox VE cluster on enterprise Dell PowerEdge servers with Ceph distributed storage.
- VLAN-segmented networking, internal DNS/DHCP, PXE deployment, centralized authentication (Authentik), and multi-site VPN connectivity (Tailscale).

Hanna Properties — Rental Management Platform

- Full-stack portal managing 75+ tenants: role-based access, Stripe rent tracking, maintenance workflows, and analytics dashboards.

TECHNICAL SKILLS

React, JavaScript, Node.js, Python, PowerShell, Bash, REST APIs, Firebase, Stripe, Proxmox VE, Ceph, Linux, Docker, Windows Server, Active Directory, DNS/DHCP, VLANs, Firewall Configuration, VPN, PXE Boot, Nmap, Wireshark

EDUCATION & CERTIFICATIONS

Stevenson University

2022 – 2025

B.S. Computer Information Systems

- CompTIA Security+ (March 2026)
- ISC2 Certified in Cybersecurity (CC)
